The Sterling Water Conditioner obtains the UPC Mark for Models ICT-38, ICT-70 and ICT-110

Wichita, KS --- Sterling Water Systems, LLC is proud to announce that the ICT-38, ICT-70 and ICT-110 are now UPC listed. (See attached listing certificate) These models are utilized in commercial applications such as hotels, apartment buildings, offices and restaurants.

We are very excited about the opportunities this expanded UPC listing brings for our distributors and ourselves. We will be submitting the ICT-150 (20 -1,000 gpm with a 6" I/O) to IAPMO for testing in the coming weeks and expect that it will be added to our listing certificate in the fall.

Below are the specifications and pricing information for each unit.

Model	Flow Capacity	Length	End Fittings
ICT-38	4-60 gpm	52"	1 ½" flange/unions
ICT-70	9-120 gpm	52"	2" flange/unions
ICT-110	10-500 gpm	76"	4" flange
